Mothers March Monday

March of Dimes Mothers' March is set for Monday in Canyon with members of women's clubs participating. Mrs. Margaret Ruthart is chairman of the Mothers' March this year. Shown above are Wayne Wirt, chairman of the entire drive for Randall County, Mrs. Rex Griffin,

member of the Jaycee-ettes, and Bill Moore, chairman of the poster and coin collectors for this year's campaign. The march begins Monday afternoon for women who wish to help in the afternoon. The evening door-to-door campaign begins at 6 p.m.

Area Foundation Sets Sunday Meet At WT

Annual membership meeting of the Texas Panhandle Heritage Foundation will be held at 4 p.m. Sunday in the Fine Arts Building on the West Texas State University campus. Mrs. Ples Harper, president, has announced.

Highlight of the meeting will be a demonstration of methods developed to reproduce commemorative plaques and a relief map of the Panhandle in glazed tile as decorations for the amphitheater in Palo Duro State Park.

Principal speaker will be Dr. Emilio Caballero, head of the WTSU art department and supervisor of the decorations project. Dr. Caballero will discuss the history and use of glazed tile in high-relief decoration and will demonstrate how the tiles are made and fired.

He will be assisted by Don Ray, WTSU art instructor, and members of the university chapter of Kappa Pi, national honorary art fraternity, who are participating in the project.

The program will also include election of new board members and a report by the president.

The Palo Duro Park theater has been specifically designed for staging a narrative-and-music drama reflecting Panhandle history, and this memorial function will be enhanced by the decorative scheme.

O. P. Cowart, Palo Duro Park concessionaire, is currently preparing a sand table model of a relief map of the Texas Panhandle. The map will show main geographical features and include the trace of historic trails and location of famous

cattle spreads. When completed, Cowart's model will be sectionally reproduced in glazed tile and assembled on the vertical trapezoid of concrete in the angle where walks diverge at the entrance to the theater.

Title plaques commemorating the counties of the area will be displayed on a rectangular concrete wall at the rear of the theater.

The plaque designs were drawn by high school students of the area in a competition sponsored last year by the Texas Federation of Women's Clubs and the Fine Arts Council of the Amarillo Chamber of Commerce.

To preserve texture and detail, etched zinc plates of the designs are being prepared by James Mickelson of Panhandle Engraving Co. of Amarillo. Working from these 16-inch-square plates, members of Kappa Pi under the direction of Ray and Dr. Caballero will make imprints in clay, which will then be fired to a durable glaze.

Members of the Canyon Junior Chamber of Commerce have jumped into the poll tax drive and will be on duty Jan. 31--last day to get your 1964 voting ticket--from 5 p.m. until midnight to write up receipts in the commissioners court room in the south annex of the Randall County courthouse.

Meanwhile, poll tax receipts in Randall County so far are estimated to top the 4,000 mark, and a couple of skilled guessers in the field now disagree as to whether total sales may stop at 12,000 or go on to as much as 14,000.

O. O. Henry, head clerk in the office of Bill Money, county tax assessor-collector, thinks it won't be any trouble at all to triple the 4,000 figure and go considerable better.

Money, on the other hand, thinks the county voting strength this year will do well if it reaches 12,000.

"But it's just plain hard to say at this time," he said. "The hitch in any calculation is that we've got so many receipt books out with substations and individuals. Some of these sales points have reported, but a lot haven't. We've no idea how many receipts they may be holding."

"I still think we'll do better than 12,000 and maybe go as high as 14,000," Henry said. "We've got seven days left--and I predict everybody in this office will spend the last three doing nothing but issuing receipts. If that happens everywhere, we'll have the biggest vote ever."

Of the 4,000 receipts estimated early this week, about 2,600 were recorded in South Amarillo, Henry said, not counting exemptions which have not yet been reported.

Festival Travel Okay For Band

The music department and vocational agriculture occupied the school board Tuesday night.

The board voted to allow the band and choir to take a trip to some place such as the Tri-State Music Festival at Enid, Okla. After this year the band and choir will alternate on such trips, one group going one year and the other the next.

Both the band and choir will be permitted to attend the festival this year provided they are able to raise necessary funds above that which the school will contribute.

It also was stipulated that suitable housing must be found for the choir if it is to attend. Reservations have been made already at an Enid motel for band members who will go.

The board agreed to contribute \$12 per student attending. The group will make the trip by chartered bus and will be supervised by faculty members and parents.

Some 130 band and choir members are expected to make the trip April 29 through May 3.

Resignation of Leon Bagwell as vocational agriculture teacher was announced. Bagwell has moved to Lubbock where he will engage in insurance business.

Members of the board discussed at length the possibility of strengthening the agriculture department in Canyon School System.

Superintendent Huelyn Laycock told the board that some 43 students are taking agriculture in the high school program and about 23 in the junior high school program.

He said 72 students are required to be eligible for two teachers. Canyon school now qualifies for only 1 3/4 teacher units under state and federal rules.

FB Plans Expansion Of Office

Construction of a \$35,000 Farm Bureau building is under way in Canyon.

The modern building, 2600 square feet in size, will be located at 1714 Fifth Avenue, next to the present building.

Plans have been made for the present building to be torn down. The area will be blacktopped for parking for LaGrone Funeral Chapel.

The new Farm Bureau building will consist of four offices, a reception room, an assembly room and a kitchen.

The assembly room will seat approximately 150 persons and will be used regularly by bureau members.

The inside walls will be paneled and brick will be used on the outside of the building.

Building committee members of Farm Bureau are Roger Dugan, Bill Patke, R. B. Gist, Lewis Tucek and G. A. Dietz, committee chairman. Gist is county chairman of the bureau.

"The building will cost approximately \$35,000, including the fixtures and the paved section around the building," Dietz reported.

Jerry LaGrone, owner of LaGrone Funeral Chapel, said the parking area will be east of the funeral home and will be 90 by 140 feet in size. The area will be blacktopped and plans are being made to pave the alley in the 1700 block of Fifth Avenue.

BUILDING COMMITTEE for Randall County Farm Bureau met this week and officially had ground breaking ceremonies for a new building. G.A. Dietz, chairman of the committee and secretary and treasurer of the Farm Bureau, holds the

shovel in the picture. Lewis Tucek, Roger Dugan, Bill Patke and R. B. Gist watch as Dietz breaks the ground for the new building due to be completed in April.

W.A. (GUS) MILLER

Begert Top Cager

Famed Mentor To Be Honored

By JOHN SHIELDS

Former coach W. A. (Gus) Miller will receive the honor of being inducted into a second sports hall of fame Sunday, Feb. 2.

Coach Miller will be the sixth to be named to the Panhandle Sports Hall of Fame. He will be formally honored at 2 p.m. Feb. 2, at the Amarillo YMCA. The Y's Men's Club is sponsor

of the event.

In 1954 the former West Texas State Buff mentor was inducted into the Helms Foundation Sports Hall of Fame, otherwise known as the National Association of Intercollegiate Athletics Hall of Fame.

Born in Athens, Texas, Miller attended high school at Vega and is a 1927 graduate of West Texas State College. He played football and baseball while at the Canyon school.

Miller, presently head of the physical education department at West Texas State University, is well known both for his basketball and football teams.

The Canyon resident spent 35 years as an active coach, 15 of those at West Texas. Twenty-five of those years were spent as head coach of basketball.

Home Here Is Nearing Completion

Construction of the convalescent home at 2623 Twelfth Ave. in Canyon is slightly ahead of schedule and applications are being tentatively accepted at this time, according to Don York of Borger, co-builder and operator of the home.

Original target date for completion of the 36-bed unit was early in April, but weather has been so favorable that construction is running about eight days ahead of schedule, York said.

Exterior brickwork has been finished and interior work is expected to progress rapidly.

Applications for residence may be sent to Don York, 1210 Roberts, Borger, or to The Davis Agency at 1604 4th Ave. in Canyon, which is serving as a temporary address for York until he establishes residence here.

York and his wife will operate the home.

Construction of the new institution began last Nov. 20. The one-story, ranch-style structure conforms to prevailing residential architecture in the neighborhood and will be set off by landscaped grounds.

A staff of approximately 20 persons will serve the needs of residents, and the home will be equipped with all service facilities, including kitchen, lounge, dining room and space for administrative and medical services.

The home is being built by York, a Borger businessman with wide experience in retail drug and variety stores, and W. W. (Bill) Didlake, a Borger builder who has helped construct similar homes in several Panhandle cities.

The decision to build the home here was made by Didlake and York after a series of conferences with a Canyon citizen's committee, and after a survey indicated a need for such a home in the community.

JPs Also Share In Increase

Randall County commissioners Monday voted pay raises for two justices of the peace and eight sheriff's deputies.

The monthly salaries of W. A. (Bill) Wilson, justice of the peace for Precinct 1, and W. W. Hancock, justice of the peace for Precinct 4 in South Amarillo, were raised from \$439.25 each per month to \$450 each per month.

The sheriff's deputies were raised \$20 each, per month, giving seven deputies \$440 each per month and one deputy \$387.50 per month.

Members of the Randall County sheriff's office who received raises are J. L. Pounds, W. C. Longest, M. A. Strickland, Ray Tinsley, Calvin Costley, James Hunt, Crosby Hammons and Curt Samples.

All raises are effective as of Jan. 1.

The \$20 pay hike for the deputies was moved by Commissioner B. R. Jones of Precinct 1 and seconded by Commissioner Clarence Beckman of Precinct 2.

The increase for the justices of the peace was moved by Commissioner Bill Butler of Precinct 4 and seconded by Commissioner Glenn Dowlen of Precinct 3.

Both motions were approved unanimously.

In addition to voting the pay increases, the commissioners informally instructed Butler to investigate the feasibility of setting up an insurance plan for county peace officers.

Before the salary question was considered, George Heath of Canyon, farm implement dealer and a former Randall County commissioner, appeared before the court "as a private citizen and taxpayer" and asked that a pay increase for peace officers be given "due consideration."

Heath said he had no private interest in the Randall County sheriff's office and was personally acquainted with only two of the present deputies, but he was concerned that peace officers be paid "enough" in relation to their duties.

Poland Chinas Pull Good Bids

Poland China swine was the topic last week end at the conference, show and sale at West Texas State University.

More than 250 persons from a 14-state area attended the conference sponsored by the Southwestern Poland China Breeders Association.

Swine experts were on hand Friday and Saturday for the judging and auction of the animals. The show and sale was reported to be one of the largest held by the conference.

Visitors participated in the evaluation contest Friday morning and the type discussions were held Friday afternoon. Judging of the sale boars and gilts was held late Friday afternoon with T. Euel Liner judging the

Delinquent Taxes Down In 1962-63

Randall County commissioners Monday accepted a delinquent tax roll on real property totaling \$10,816.67 for 1962 and 1963.

The delinquent list involves 1,132 pieces of property.

It was described by Bill Money, county tax assessor-collector, as "an indication of good tax collections" and the one of the smallest delinquent lists, in terms of items and total value, in recent county records.

contest.

Judging of the sale bred sows began Saturday morning and Saturday afternoon auctioneering began.

Champion bred sow of the show was shown by Abernathy and Richardson of Elmore City, Oklahoma and brought \$225.

Grand champion boar was also owned by Abernathy and Richardson and sold for \$400.

Grand champion gilt was shown by Cecil E. Wittum and Sons of Caldwell, Kansas and sold for \$240. Reserve champion gilt was shown by N. and S. Pland Farm of Woodward, Oklahoma. The gilt was auctioned at \$155.

Ed Helgen and Sons of Monticello, Iowa showed the winners in the carcass contest. They showed the champion certified litter pair and the carcass barrow winners.

A total of 32 bred sows sold at an average of \$130 with the top price of \$380.

A top of \$400 was paid out of 29 boars. The average price was \$120 in the boar class. The average price for the 35 open gilts was \$86.60 with the top bid of \$275.

Auctioneers were Winchester and Shults of Enid, Oklahoma. Art Miller was clerk of the sale and John Brazzil was cashier.

Charles M. Smallwood and Jack Metcalf were co-chairmen of the two-day conference.

Last Call For School Head Count

The Canyon public schools census is now in its final week, and school authorities ask that parents of preschool and school age children aid in completing an accurate estimate of future enrollments.

Parents who have not been contacted by census takers, or who have not completed and returned census forms distributed on school buses, are asked to telephone the school superintendent's office, OL 5-2509, or the school tax office, OL 5-4431.

Canyon folks could be proud Monday night after receiving high praise for the magnificent piano in the high school auditorium.

Richard Cass, famed pianist gave a two-hour concert Monday night as the second in the Community Concert series and Cass was highly complimentary of the year-old nine-foot Baldwin Concert Grand piano.

The instrument was purchased in December of 1962 as part of a Parent-Teacher Association project. But PTA members realized the project was going to be full scale and they asked for help from the community and the school board. They got it.

Velma Lynn Laison was the first person to use the concert size piano last year. She played her senior recital on the grand instrument. Since then several students have used the piano in recitals and concerts.

But Cass gave the responsible people additional reason to be glad they worked and sacrificed for the piano. His comments told the Canyon folks that their efforts are worthwhile.

Canyon offers its residents a variety of tremendous opportunities in the cultural field,

BYRD PHARMACY THE PHARMACY

by Troy Martin FROM THE CANYON RIM

For the present it appears that the US will stand firm in Panama.

It seems to us that we must stand firm there if we are to continue as a great power. The Panama Canal is operated not only for the United States but for the world.

Some of the countries along the Western Coast of South America would be done irreparable trade damage if a breakdown in operation of the canal were to come about. Some 85 percent of all exports from Peru, Chile and Ecuador are shipped through the Canal.

Our responsibility in Panama is not only to ourselves but to the world in general and

to South America in particular. A fairly clear picture of what happened during the Panamanian riots is beginning to emerge. What started out as nothing more than a serious teenage gang fight boiled into an incident which has brought world-wide repercussions.

The gang fight escalated into an international incident when communist agitators took over its direction. U. S. officials are convinced that these agitators were trained in Cuba.

More than ever before, this points up the need for dealing immediately with the Cuban problem.

The new communist rulers of Zanzibar manhandled our diplomats and mistreated American nationals directly after coming to power in that tiny island country off the coast of Africa.

What happened in Zanzibar brings into focus the futility of the United Nations where a Zanzibar has a vote just as big as that of the United States.

To public relations people, news is a tool to be used for a purpose...to be proffered or withheld in a manner that seems most profitable at the time.

News about government and tax supported institutions should be the property of the people. A taxpayer has as much right to know about projects on which his money is being spent as he does to be told by his mechanic when the family automobile is leaking oil.

News is more perishable than a load of overripe tomatoes. There's nothing as dead as yesterday's newspaper.

A Canyon five-year-old we know was discussing kindergarten with his mother.

"Mommy," he expounded, "They have six thinking caps."

"Do they have one for everyone?" his mother inquired.

"No," the child replied, "There's not enough for everyone."

"What do the others do then?" the mother continued.

The little fellow looked puzzled a moment and then his face brightened.

"They just don't think," he pronounced with confidence.

Guess we owe Umberger an apology. We claimed all the credit for Jerry Richardson for Canyon in last week's paper.

Jerry really did put Canyon on the map but we're not denying that he's an Umberger product.

Our congratulations to the community of Umberger.

COLLEGE STUDENTS

Larry Lee Dunaway, Medical.

by Dr. J. A. Hill HILLTOP VIEWS

We are hearing much these days about school "drop outs". Its importance is reflected in many facets of American life - in the number of illiterates, in growing delinquency, in lack of respect for law and obedience to constituted authority, in the inability to earn an honest living, in a poor quality of citizenship, and in other areas of our common life.

It is not meant to imply that school "drop outs" are the sole cause of all these ills -- not by any means, but it is reasonably certain that school attendance through the child's formative years contributes much to the over-all quality of American citizenship. If not, we are spending a whale of a lot of money to no good purpose.

It is said by good authority that a sizeable per cent of children never go beyond the elementary school, that one third of all high school students never graduate, of those who do graduate only one-third go to college, and of those who enter college half drop out before graduation. It might be said, too, that a considerable number of those who run the educational gamut never find out what life is all about.

This does not mean that the schools must carry the whole blame for this situation, for much of it is the product of the homes, the business and professional world, the churches, and perhaps other influences. Yet, if the schools were meeting fully their responsibility there would be a vast improvement in the picture of American life and there would be many fewer school - drop - outs.

This raises the question, how can our schools be improved? Dr. Edgar Dale of Ohio State University, a highly respected teacher and author, attacks this question in a recent publication of that institution. Among other things, he says, "I propose a Life Management Curriculum" which, he says, has several important ingredients, the first of which would be an over-arching concern for the values comprising a good life. In our curriculum we would examine the values inherent in the Declaration of Independence, The Constitution (its preamble, body of statements, and Bill of Rights). We would study the meaning of respect for law, freedom of access to ideas, freedom of belief, concern for the public welfare, and the promotion of constitutional democracy. We would aim to make these values a part of the life habits of all students."

If such a program could be intelligently, consistently, and vigorously activated there would follow, in our opinion, a tremendous improvement in the quality of the average American citizen. One of the greatest weaknesses in the American system is the failure of the average citizen to understand that freedom and responsibility are correlative terms -- the more of the one we enjoy the more of the other we must carry. There is a vast difference between liberty and license. Young people should be made to understand this before leaving high school.

Dr. Dale's Life Management Curriculum would encourage students to "analyze the traits of men and women whom they admire and try to imitate. They would discuss their own picture of success, the ingredients of the good life, the difference between using their education to get ahead of other people or ahead with them."

"In the social studies classes would analyze and judge the values of Billy Sol Estes, of the officials of a major electric company who were jailed for price fixing."

"Students would learn how to look, to listen, to read."

How to tell the truth from falsehood, fact from opinion, the phony from the real, the beautiful from the tawdry. They would develop taste in literature, in music and the fine arts."

"We would help students understand that prejudice blinds all of us a little and some of us a lot. That persons ordinarily wise may have blind spots leading to foolish actions."

"If competency in a foreign language helped the high school student communicate more effectively, his curriculum would include that language. But we would avoid a foreign language program which would only make him illiterate in two languages."

More next week.

SPEED READING COURSE BEGINS FEBRUARY 6 IN CANYON

A course in speed reading and comprehension will be offered to the general public in the Canyon area beginning Thursday, February 6. The course will be held in the Baptist Student Union from 7 to 9:30 each Thursday evening for eight class meetings - a total of 20 hours of formal instruction.

Rudy Horak, the instructor, has taught the course at Amarillo College for the past eight years, in addition to having presented it to the employees of various business firms. The course enables the average student to triple his reading rate and considerably improve his comprehension.

Some of the principles and techniques covered in the course are the following:

1. Freedom from "word by word" reading.
2. The development of a "groupword" reading habit (phrases, clauses, and short sentences) by use of the tachistoscope, a machine which projects groups of words and digits on a screen.
3. Reducing "fixation time" when focusing the eyes on print.
4. Enlarging the vocabulary.
5. Learning to read "actively", and in a critical sense, instead of simply absorbing print.

Registration for the course will be at 7 p.m. Thursday, February 6 in the Baptist Student Union. The first class will be held immediately following registration. The fee is \$20.00 per person, and the cost of the textbook is \$3.00, payable at the time of registration.

Ambassadors Plan Services

The Christ's Ambassadors of the Assembly of God Church will conduct services at the church Sunday in observance of CA Day.

Roy Burke, a student at West Texas State University, will be the guest speaker for morning and evening services at the church. Other C. A. members will teach all Sunday school classes and fill offices of the church for the day.

At the prayer meeting services last Wednesday, Loren Young, a WTSU student, was the guest speaker. The program Wednesday evening was presented by the Christ's Ambassadors and included several special musical numbers.

THE TIME HAS COME

The President of the United States has been murdered by a Marxist-Communist within the United States.

It has been pointed out by the Hon. Martin Dies, since the assassination, that "Lee Harvey Oswald was a Communist," and that when a Communist commits murder he is acting under orders. The former Congressman, head of the original Dies Committee, is probably second only to J. Edgar Hoover in first-hand knowledge acquired from early and long experience in investigating Communist activities.

The Hon. J. Edgar Hoover said in a speech on October 18, 1960: "We are at war with the Communists, and the sooner each red-blooded American realizes that the better and safer we will be." He emphatically repeated this statement on December 3, 1963 - ten days after the assassination. And this is none the less war because the Communists conduct it according to their usual methods, without regard to civilized rules or human decency.

Nor is it in character for the Communists to rest on this success. Instead, we can expect them to use the shock, grief, and confusion of the American people, resulting from the assassination of our President, as an opportunity for pushing their own plans faster. Also, we shall be subjected to an ever greater barrage of distortions and falsehoods, aimed at imposing on the nation a completely false picture of the situation and of the forces at work. They have to subvert our minds as well as our institutions.

For five years The John Birch Society has said that, regardless of the external threat, Communism was a serious internal menace in the United States. And we were

right. This has now been proved, tragically but conclusively, to the deep sorrow, but also to the profound alarm, of all good Americans. The time has come for those good Americans to join us in this fight against the powerfully organized "masters of deceit." For, as Edmund Burke once wrote: "When bad men combine, the good must associate; else they will fall one by one, an unpitied sacrifice in a contemptible struggle."

The John Birch Society is an educational army, and our only weapon is the truth. But George Washington stated our problem well: "Truth will ultimately prevail where there is pains taken to bring it to light." We take tremendous pains in proportion to our numbers and our strength, and all we need to win is that enough other patriots join us in our determination and our labors. For there is nothing the Communists fear so much in the whole world today as having the American people learn, too soon, the truth about their purposes, their methods, and their progress.

If you oppose the Communist conspiracy by learning and spreading the truth, you may expect to be smeared as viciously as we have been for five years. But you will be helping to save your family and your country from the same cruel tyranny that has already been imposed on a billion human beings.

The time has come for every red-blooded American to react as such. If you have the willingness to learn and the courage to support the disturbing truth, use the coupon below. It will be without any obligation on your part, and we shall not contact you further unless or until you request us to do so.

Buffs Roar To Victory Against Cowboys, 56-55

By John Shields

West Texas State roared back after a dismal first half Friday before a small home crowd to nip the Hardin-Simmons Cowboys, 56-55.

Kirby Pugh, junior from Abilene, became the hero in the waning seconds as he dropped in three of four clutch free throws to put the victory on ice for the Buffs.

It evened the Buffs record for the season at 6-6.

Eastern New Mexico will play host to the Buffs Friday at Portales.

Plagued by mistakes and the ball-thieving Cowboys, West Texas found the first half much to its distaste. At halftime the visitors had rolled to a 14-point lead, 31-17.

Hardin-Simmons out-rebounded the Buffs 36-24 in the first 20 minutes, many of them

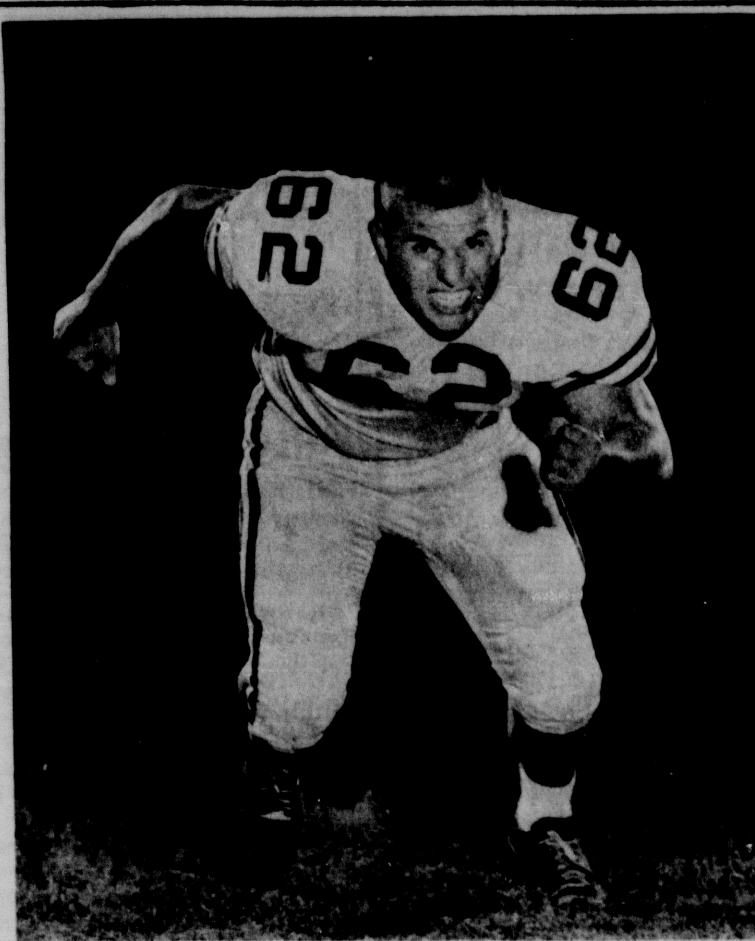

were key rebounds. West Texas had put up 21 shots from the field and made only seven for a cool 33 per cent at halftime. The Cowboys had a freezing percentage as they managed to force only 12 of 46 attempts for 26.3 per cent.

It was the lowest output for a half the Buffs have shown this season.

The contest was nip-and-tuck through the first fourteen minutes. George Scott dumped in a two pointer with 6:10 left in the half to put the Buffs within two points of the Cowboys at 17-15.

But then the visitors rallied to take the 31-17 halftime margin behind the shooting of their leading scorer Nate Madkins.

It appeared at this point that Hardin-Simmons would help the Buffs continue their home court

JACK MAYFIELD

Mayfield Signs With Cardinals

The St. Louis Cardinals of the National Football League have announced the signing of West Texas State tackle Jack Mayfield.

This brings the number to five out of the ten seniors on the 1963 Buff squad that have signed with pro clubs.

Earlier signings were Jerry Richardson, Los Angeles Rams; Ollie Ross, San Francisco '49 ers; John Varnell, Houston Oilers; and Pete Pedro, Boston Patriots.

Mayfield, an Odessa native, will be used as an offensive left guard. Officials on the Cardinal staff said this was their big need at the present time. There is one older man playing at that post.

Mayfield played guard before the 1963 season for Joe Kerbel. But there was a big need for tackles and Mayfield made the switch in fine fashion last season.

Registration Is Wednesday

Registration for the spring semester at West Texas State University will open here next Wednesday (Jan. 29), when freshmen start enrolling at 8 a.m. in the Student Union Building. Upperclassmen register Thursday and Friday.

W.E. Hill Shows Top Rabbits

Rabbits brought local fame to W. E. Hill this week. Hill entered 10 New Zealand white rabbits in the Texas Panhandle Rabbit Breeders show in Amarillo. The rabbits placed in six of the classes.

WT Cagers Meet Miners Saturday

West Texas State will host the tough Texas Western Miners Saturday at 8 p.m.

The freshmen will battle Graham Plow at 6 p.m. in the preliminary.

The Buffs test Eastern New Mexico Friday at Portales.

In the last meeting between West Texas and the Miners, the Buffs were dropped, 84-66.

West Texas will try once again to contain the Miners' fabulous Jim (Bad News) Barnes. He made 40 points and was a monster on the boards in the last encounter of the clubs.

The Miners of coach Don Haskins have been ranked in the top 20 of the major college basketball polls throughout most of the current season. In the last meeting of the clubs, as in other games this

Stompers Win, 94-88

The young men outlasted the "old men" Friday when the West Texas State Stompers clipped Lincoln Liberty of Lubbock, 94-88.

West Texas played host to the commercial league club which was composed of eight former Texas Tech stars plus two from TCU.

The visitors played good ball throughout the contest but after the first thirteen minutes just couldn't manage to keep pace with the fast moving Stompers.

After the first ten minutes of play Lubbock was out front by two points, 24-22. But with seven minutes left to play in the first half West Texas gradually pulled ahead and at halftime lead, 60-49.

Ted Wheeler connected on a jump shot with 14:23 remaining to be played to give the Stompers a 72-53 advantage. Midway through the second half West Texas lead, 78-65. At 3:18 the visitors clipped the margin to 11 points, 88-77.

Lubbock made a final rally but it wasn't enough to beat the determined Stompers.

Wheeler was the big gun for West Texas as he ripped the nets for 31 points. Wallace Franklin chipped in 24, Sherfield Whaley 21, Mickey Fitts 10, Bill Patton 4, Wade King and Harry Lisle 2 each.

The Stompers journey to Eastern New Mexico at Portales Friday and will host Graham Plow Saturday at 6 p.m.

The left West Texas with a 4-3 mark.

Eagles Lose In 2nd District Tilt, 42-39

The Abilene Antelopes upset Canyon's Eagles Friday at Abilene, 42-39.

It was the first District I-AA setback suffered by the Eagles of Allen Simpson this season. They are now 17-8 for the season and 1-1 in league play. Abilene was 1-0 in district play after Friday's win.

Tulia slammed Lockney in other conference action Friday, 87-55.

Canyon will host the Lockney boys and girls Friday. The girls play at 7 p.m. and the boys battle at 8:30 p.m. On Tuesday Floydada invades Eagle Gym, with starting times the same.

Abilene was sparked by a 24-point performance by Sam Humley.

It was a see-saw battle throughout the entire contest. At the end of the first quarter Canyon led, 8-6.

In the second period the Antelopes outscored the Eagles to knot the count at halftime, 14-14.

Entering the final period of play Abilene was out front, 28-27. Canyon took the lead, 29-28, with about seven minutes remaining to be played in the contest. At 6:00 Abilene tied the count, 29-29.

Canyon connected on 15 of 37 field goal attempts for 40.5 per cent. The Eagles connected on nine of 18 free throw tries for 50 per cent.

Bobby Evans was the only Eagle player to score in double digits. He had 10 points, followed by Don Breitling and Jim Whinnery with 7 each. Skip Moore and Jody Richardson 6 apiece, Eddie Poole 5 and Steve Burgess with 4.

The Varsity girls were tripped by Abilene, 63-41.

Abilene led at the end of each quarter, 11-10, 29-19 and 42-28.

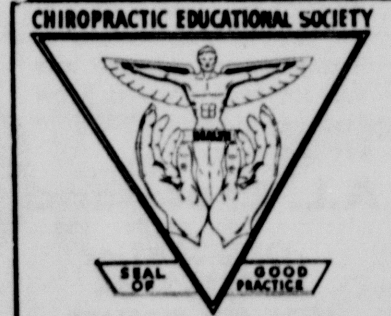

Jan Jarnigan was high for Canyon as she ripped the nets for 24 points. Andy Lair had 11, Ruth Purcell 4 and Cynthia Gerald 2.

Coaches Pick HHS Cowgirls

Happy Cowgirls have been named the Class B team of the month in a Texas high school coach publication.

Texas High School Girls' Basketball Coaches Association magazine has picked the Cowgirls' coached by Bill Tennyson, for the small school team of the month. The girls will be featured in the monthly publication to be issued later in January.

The Cowgirls now have a season win and loss record of 22-5. Last year the team won district and was ranked third in regional play.

Medical Cost Quiz Slated For Area

Beginning Monday, about 50 families in the Canyon area will be interviewed in a survey of medical and hospital care and expenses of 1963.

The interviews, conducted by representatives of the Health Information Foundation of the University of Chicago, are part of a nationwide study to determine how families meet medical expenses and to what extent they benefit from health insurance protection.

The interviews here will be conducted by Mrs. Wanda Mitchell and Mrs. Phoebe Jo Fausbion.

Answers to questions are confidential, and no family will be mentioned by name in any reports on the study. Interviewers will carry credentials signed by Peter H. Rossi, director of the National Opinion Research Center.

Gail McKinney, left, and Sandra Boggs were busy Saturday during the all-day car wash sponsored by the Canyon High School choir. Choir members washed cars from 8 a.m. until 7 p.m. Saturday, making approximately \$90. Don Rogge, choir president, organized the wash and directed the day's business.

ball and football at the schools he tutored.

Miller racked up enviable records in both major sports while coaching. While at Trinidad, Colo., and Slaton, Texas, his basketball teams compiled an outstanding 154-28 won-loss record. In football his teams were 159-43-2.

After leaving Trinidad in 1937 he moved on to Texas Wesleyan College at Fort Worth to hang up a 106-19 record with the Rams. He was there five seasons.

Texas Wesleyan's loss was a gain for West Texas. For five years, 1942-1947, Miller coached both basketball and football for the Buffs.

The hall of famer tutored the cagers 1942-57.

The Buff cagers produced a 15-year total of 176 wins and 128 defeats for Miller.

Miller coached two All-America round-batters while at West Texas State. They were J. W. Malone and Troy Burrus.

While coaching the Buffs, Miller gained fame for the small Canyon school by producing teams good enough to compete in famed sports centers throughout the country. Among those were Philadelphia's Convention Hall, San Francisco's Cow Palace, Madison Square Garden, Miami's Orange Bowl and Chicago Stadium.

Miller's club of 1940-41 at Texas Wesleyan journeyed to the NAIB Tournament at Kansas City. That team lost to San Diego State in the quarter-finals. San Diego State copped top honors in the meet.

West Texas State dropped a playoff tilt to national champion San Francisco in 1955.

For a coach that guided his basketball teams to a career total of 436 wins and only 165 losses, the honor to be bestowed upon Miller is well deserved.

Gus Miller and his wife Lillian live at 701 25th St. in Canyon. They have a son, Dr. W. A. Miller, Jr., head of the Division of Education and Psychology at McMurtry. Their daughter, Marian, is married to Dr. W. E. Byrd, chief resident in urology at City Hospital in St. Louis, Mo.

Both son and daughter attended West Texas State.

Bob Begert of Canyon will be honored as the basketball athlete of the year in the same ceremonies with Miller. Begert was All-State his senior year, 1962-63, at Canyon High School.

He had better than a 20-point scoring average per game and was instrumental in leading the Eagles to the runner-up spot in the state finals at Austin.

Coach and athlete of the year will also be named during the activities. The two will come from all sports.

All of the honorees will be awarded plaques.

Others from West Texas State who have been honored in the Panhandle Sports Hall of Fame were Frank Kimbrough, athletic director and former head grid coach and Joe Fortenberry, an All-America basketball player.

Hull Returns To Part-Time Office Duty

Truett Hull Jr., criminal district attorney for Randall County, this week resumed his office duties on a part-time basis.

He said he expects to continue to be available for several hours each day but could not predict when he would be able to assume the full work load.

Hull has been recuperating from surgery which he underwent at Houston.

George Dowlen continues to serve as acting district attorney.

Tom Martin To Speak

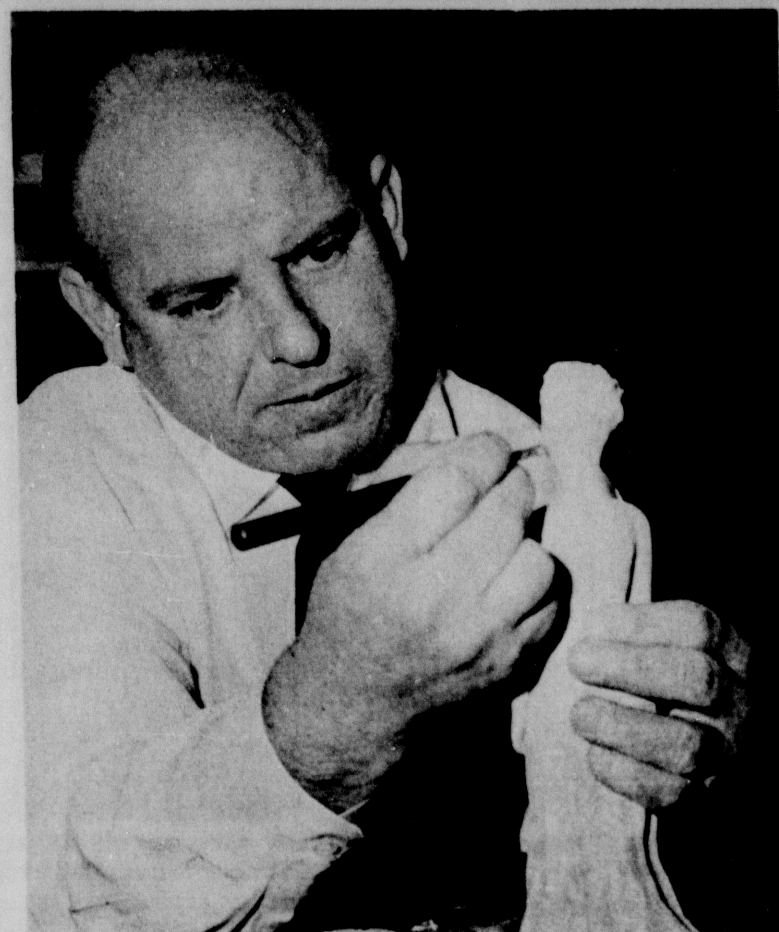

Tom Martin, editorial director for KFDD-TV, will be a guest speaker for a meeting of the Schooner Club Tuesday evening, Jan. 28th.

Martin's topic will be "Anatomy of Hate". Following his speech there will be a question and answer session.

The program will be held at Fellowship Hall of the First Presbyterian Church of Canyon beginning at 7:30 p.m., Jan. 28th.

Host committee for the evening program includes Mr. and Mrs. Sherwood Blasdel, Rev. and Mrs. Dale Harter and Rev. and Mrs. Lars Hamerson.

The public is invited to attend the program. It is requested that guests who plan to be present contact a member of the host committee prior to the program.

The theater will also provide wall space to commemorate the names of persons whom foundation-members of the Heritage Foundation may wish to honor.

Any holder of two founder memberships (\$200) may designate a name to be inscribed on walls flanking the promenade area at the rear of the theater. A holder of five founder memberships (\$500) may designate a name to be listed with the occupation, county of residence, and date of settlement in the Panhandle.

The president's report will include financial facts of interest to foundation members.

According to the report, \$185,000 has been committed to the project so far, including \$76,000 for the audience bowl and stage of the amphitheater. Value of facilities furnished by the Texas State Parks Board is estimated at \$25,000 and \$8,000 has been advanced on account for a drama and musical

script. Cost of maintaining the foundation office in Canyon for 30 months since its opening totals approximately \$18,000. Mailing costs total \$7,000 and office equipment is valued at \$360. Travel expenses in connection with the project so far total \$3,000.

The statement of financial facts shows a cash balance of \$11,408, plus more than \$20,000 in pledges not yet committed in any way.

Membership in the foundation currently numbers about 2,000 persons in all sections of the area.

to their hazardous duties.

He cited the recent deaths of Texas peace officers in line of duty and noted that while the public, emotionally moved by President Kennedy's assassination, had contributed generously to the officers' families such feelings could not be relied on to be effective at some future time "when an officer's death might be just another death."

Heath was thanked for his appearance before the court.

An indication that commissioners would at least consider pay raises for peace officers came Monday a week ago, when Beckman said he was interested in surveying pay scales for sheriff's deputies. At that time, Beckman said he was disposed to consider an increase for the deputies, in view of their work hours, 24-hour availability, and the hazards of the job.

Bill Money, Randall County tax assessor-collector, visited the meeting Monday to ask that commissioners consider salary increases for employees of the tax office, excluding himself.

Money cited the growth of Randall County tax business and said he faced the prospect of losing personnel to better paying jobs elsewhere. He said the current salary scale for the tax office was out of line with practice in comparable offices in other government units.

Commissioners countered with the argument that they could not be bound by practices in other places.

Excepting the increases voted, no other changes in current salaries were proposed.

ACLU Men To Meet On Campus

A representative of the American College of Life Underwriters will visit the West Texas State University campus next Tuesday for an evaluation of the Chartered Life Underwriters classes offered at this institution.

Dr. Kenneth W. Herrick, professor of insurance at Texas Christian University, one of four evaluation consultants in the nation for ACLU, will discuss educational requirements set by ACLU, visit the WTSU class taught by Zeke Marchant, and attend a luncheon while on the campus.

West Texas State was one of the first colleges in the nation to offer the five-year program of Chartered Life Underwriters courses, participating in the American College of Life Underwriters program.

Expected to attend the luncheon at 11:30 a.m. in the gold room of the east dining hall will be members of the Amarillo and Canyon Chambers of Commerce, members of the Chartered Life Underwriters of Amarillo, the WTSU class, President James P. Cornette, Dean Walter H. Juniper, and Dr. C. C. Callarman, chairman of WTSU's School of Business.

RICHARD CASS, famed pianist, is shown with one of the top local pianists, Mary Ann Wheelock. Cass performed Monday night as the second in the Community Concert series. A large crowd attended the concert held in the Canyon High School Auditorium.

Cass Glitters On Stage Here

By PETER KLAISLE
Of The WTSU Music Department

Richard Cass, young American pianist, presented the second concert of the Canyon Community Concert Association series on Monday evening in Canyon High School auditorium.

To open the evening's concert Mr. Cass elected to play the contemporary, "Sonata For Piano," by Lou White. This composition in three movements has many technical devices and pulsating drive, yet was also especially lyrical in the second movement.

The ever popular "Waldstein" sonata by Beethoven was given a rigorous yet controlled reading by the artist. Mr. Cass believes in providing the contrast necessary to please every taste. The first movement was in rather slow tempo, giving ample opportunity for the soloist to develop his interpretation. The second movement was too slow for this reviewer's taste, whereas in the third movement he had much fire, building towards the climactic end of the composition.

The next selection was the Chopin "Polonaise-Fantasia In A Flat Major, Opus 61". This is an aristocratic "show off" bit pageantry. Again, Mr. Cass provided the large audience with a rendition of controlled elegance and fireworks.

After the intermission, the pianist chose to play the rarely performed "Valse Nobles Et Sentimentales," by Ravel. These short pieces gave the performer ample opportunity to express the subtle and various refinements of tonal colorings and are infinite delicacy of texture.

"Franz Liszt's Three," "Transcendental Etudes: Harmonies Du Soir, Feux Follets, and La Chasse Sauvage," provided the South Carolina pianist the opportunity to utilize his tremendous technical ability, style and drive to create the speed, melodic interweaving, cross rhythms and brilliant octave display which is so characteristic of the mature, demanding works of Liszt.

As encores, Mr. Cass chose the ever popular, "The Girl With The Flaxen Hair," by Debussy, "Mountain Tune," by Wendell Keeney, and the "Aeolian Harp" etude by Chopin.

The third concert of the three part concert series will be given on March 25.

The concert played here Monday differed only in the third section from a program which Mr. Cass was scheduled to present in New York's Town Hall last Nov. 22.

The Town Hall concert was cancelled in deference to the death of President Kennedy.

Mr. Cass is scheduled to present the same program in New York next March.

Third and last concert of the 1963-64 series here will feature the Romeros, a guitar quartet. Association members will be afforded a preview of these musicians when they appear Jan. 31 during the "Tonight" show on NBC-TV.

Bike Doctor Pal To Young Wheeler-Dealers

BY FRED TRIPP

Let "Grandpa John" get his capable hands on a saw to be sharpened, a lawn mower to be set to rights, or a bicycle to be repaired, and he's a happy man. "The doc told me to take things easy, and I'm doing that," he says, "but I try to keep busy. I know how I feel about idleness, and I feel sorry for anybody who's retired and doesn't have a hobby—even if it's only crocheting or mending socks."

"Grandpa John" is John Hilgenfeld of 901 Sixth Ave., a craftsman famed in these parts for being just about the only bike mechanic at the service of small-fry pedal pushers. He's been busy with his "hobby" since he retired some 15 years ago, and to visit with him now is to be convinced that his interest in restoring battered wheels to running order has been as good for him as it has been

a blessing for Canyon kids. Stocky, grizzled and spry, Hilgenfeld looks and acts a good deal less than his 77 calendar years—in fact, not much older than he was on that day a half-century ago when he shoveled 18 tons of coal in a 12-hour hitch at the firebox of a Katy engine.

"Eleven hours and 45 minutes, to be exact," he recalls. "Some people say it can't be done, but I say it can, because I did it."

A native of Jefferson County, Mo., Hilgenfeld grew up in a variety of odd-jobs until 1909 when he settled down to swinging a coal scoop on the old Wichita Falls and Northwestern. It wasn't a bad job as jobs went in those days, but it had its drawbacks.

"Darned old hardrock coal," Hilgenfeld remembers, "it wouldn't burn even if it had dynamite in it."

His 18-ton exploit at the firebox came shortly after the WF & NW was taken over by the Missouri-Kansas-Texas.

"We had some of the high brass on a special run from Wichita Falls to Forgan, Okla., then back to Woodward," says Hilgenfeld. "I was firing an American 4-6 passenger engine, and it was a 411-mile run, most of it on a mud track—none of your rock ballast. We

took on 45 tons of coal and I fired 18 tons of it, by measure. It was rough, of course—but then I was only 26 years old..." Hilgenfeld railroaded as fireman, engineer and sometime mechanic until 1922, when he decided to switch to farming near Wellington in Collinsworth County.

"Can't say whether I was a good farmer or not," he says. "Maybe I took it up at the wrong time. Anyhow, I stuck it out for 18 years and nearly starved until I quit in 1940, when I finally got even with the banks."

Never too happy without a spanner wrench at hand, Hilgenfeld considers he hit it lucky when he moved from the farm to pumper station job in the Colorado oilfields.

"It was a small property between Navajo Peaks and Chama Peak, on the New Mexico line," he recalls, "and it was then owned

by Lafayette Hughes. Some old-timers around here might remember him as one of the owners of the old Milliron Spreads. I worked in the oilfields until 1947, then came to Canyon."

The Canyon move came as the result of an illness which effectively removed Hilgenfeld from hard work—and set him to thinking up something to occupy his time.

"For six months I didn't do much but sit in a rocker on the porch," he says. "Then one day, a neighbor suggested I set myself up in some kind of sideline—sharpening saws and tools and lawn mowers. So I bought some equipment, took an ad in the paper, and managed to keep busy ever since."

Hilgenfeld went into the bike repair line more or less by happenstance, but almost at once he had as much work as he could comfortably handle. Nowadays, hit by a change in the riding habits of youngsters, the business isn't quite as lively, but "Grandpa John" is still a pal to a passel of the look-ma-no-hands school of transportation.

"Everybody around here knows me, and the kids just bring their bikes and leave 'em on the premises," he says. "So I just fix the wheels and then try to find out who they belong to. Last week I came home and found a bike leaning against the house. It was in pretty bad shape—looked as though a car had rolled over it. Anyhow, I recognized it because I'd worked on it once before. Now all I've got to do now is remember who owns it..."

Like any specialist, Hilgenfeld has gained a couple of in-Mr. and Mrs. "Happy" McAtee attended the Cotton Bowl game in Dallas with their son, Gary, and his friend, Randy Buttrill.

While in the Dallas area, the McAtees were houseguests of the W. B. Dye family.

bicycle mortality is the habit of parking or abandoning the wheel in a driveway.

"I get some in pretty horrible shape," says Hilgenfeld, "but it's not hard to figure out what happened. Somebody just left his bike in the right-of-way, and a couple of thousand pounds of auto ran over it."

Hilgenfeld also notes a substantial decline in the fine old exercise of pushing a hand mower around the lawn.

"For a while, sharpening lawn mowers was a good business," he recalls, "but now the power mower has taken the steam out of it. I still do some hand mower work, and I sharpen blades on power motors, but I won't fool with any motor jobs."

On the other hand, the saw and tool sharpening business is still pretty good, and with special machines Hilgenfeld tackles just about any job going in this line.

"I'll sharpen anything but straight razors and pinkieshears," he says. "Funny things is

only last week I got a call to put an edge on a razor. I had to say no. You'd be surprised, though, at the number of straight razors still in use around town."

Hilgenfeld's charges for sharpening tools and mowers vary according to the job but range from 50 to 75 cents for hand-saws and portable saw blades to as much as \$4 for certain types of power mower blades.

"Mostly because those power mower blades get in really bad shape before anybody thinks about sharpening them," he says. "They get knicked and bent on rocks, glass, pieces of iron, but nobody bothers to check until they start chewing the grass instead of cutting it."

Hilgenfeld and his wife have made their home in Canyon since 1947, and last Jan. 1 they celebrated their golden anniversary. Sharing in the big occasion were the couple's two sons, four daughters, 22 grandchildren and 14 great-grandchildren.

Members of the family living in Canyon include a daughter, Mrs. J. W. Fain; a granddaughter, Mrs. Jimmy Golden; and two great-grandchildren, Rebecca and Kevin Golden.

THE CHILDREN of Mrs. Leon Bagwell stop their activities mid-morning for a glass of milk. The children are, left to right, Toby, 4, Toni, 8, and Terri, 6. Her family and friends

know Mrs. Bagwell as a good cook. This week she is sharing her recipe for Whipped Cream Pie with our readers.

Mrs. Leon Bagwell Gives Whipped Cream Pie Recipe

By Lorena Miller

Mrs. Leon Bagwell's delicate desserts always make a fast disappearance at club functions. Mrs. Bagwell shares her recipe for Whipped Cream Pie with our readers this week.

Mrs. Bagwell and her husband, a vocational agriculture teacher at Canyon High School, were both raised in the Texas Panhandle.

She is the daughter of Mr. and Mrs. Cornell Knight, former restaurant owners, at Groom. Her family includes three sisters, Mrs. Ernest Lamberson of Groom, Mrs. George Slocum of Amarillo, and Mrs. Russell Steinkirchner of Pennsylvania.

The former Nell Dean Knight is a graduate of Groom High School and completed one year of nursing school in Amarillo before becoming the bride of Leon Bagwell in 1954.

Bagwell, who was in the Air Force at that time, was married at Claude, Texas. He is the son of Mr. and Mrs. Claude Bagwell, retired farmers, and has seven brothers and four sisters. His brother, Milton, is a student at West Texas State University and one of his sisters, Sammie Stroud, also resides in Canyon.

Only two of the Bagwell's sons have followed their father in the farming field. One son operates a farm and ranch near McLean and Leon is presently teaching vocational agriculture. Other occupations followed by the sons include carpentering, a missile plant employee, an airline mechanic and a blueprint specialist.

A graduate of Claude High School, Bagwell studied two years at West Texas State University and later transferred to Sam Houston Teacher's College in Huntsville where he received his degree. The Bagwells have lived in Canyon about three and a half years where he has been teaching at CHS. Along with his teaching duties, Bagwell has been working on his master's degree.

The Bagwells and their three children are moving to Lubbock later this month, where he will become a district manager for Modern Woodman of America Insurance Company. He has served as a district insurance agent for the company while living in Canyon.

The family residence, 1207 9th Avenue, is a two bedroom home. It features a large carpeted living room and the kitchen dining area are complemented with wood toned panel cabinets.

"I often bake desserts ahead and then freeze them in quantity," said Mrs. Bagwell. "My children are picky about their food. They like meat and potatoes—not all mixed together in a casserole either."

Children of the Bagwells are Toni, 8, Terri, 6, and Toby, 4. Like most youngsters, they busily watch TV cartoons, enjoy toast spread with jam and jelly, and are awaiting the warmth of spring-like days so that they can use their energies in outdoor play.

Toni is a third grade student at Canyon Elementary School. She is active in beginning 4-H work and sings with the Primary Choir at the First Methodist Church of Canyon.

A first grade student, Terri, likes to attend school and brings home projects that the students make in class. She also participates in the Primary Choir. Toby is a pre-schooler and

"into everything" according to his mother, Mrs. Bagwell.

The Bagwells are members of the First Methodist Church where she participates in activities of the WSCS and both are members of the Pathfinder Sunday School Class.

Bagwell is advisor for the Young Farmers Organization and his wife is reporter for the

PTA Elects Officers February 20

Hobart McDonald and Gordon Downing presented a program on Character and Spiritual Education at the PTA meeting last Thursday evening.

McDonald, student counselor at Canyon High School, and Downing, director of the Church of Christ Bible Chair at West Texas State University, each gave short speeches during the program that was followed with a question and answer session. A devotional in song was presented by Mrs. H.R. Fulton who sang several Rogers and Hammerstein selections. She was accompanied by her husband, Mr. Fulton.

Dale Harter, PTA president, presided during the short business session when members present selected a nominating committee for next year's prospective PTA officers.

Committee members include Oscar Hinger, Mrs. Earl Reynolds, and Mrs. Gene Morrison. The committee will present a list of prospective officers at the February meeting and the election will be conducted during the meeting.

All PTA members are urged to be in attendance at the meeting, Feb. 20, when officers for the 1964-65 school term of the association will be elected.

Also included on next month's program will be a special display of books by the high school librarian. The book display will co-ordinate with the program, "United or Divided", which will explore possible reasons for juvenile delinquency.

Mishap Tab Up In '63

Pacing population growth and an increase in car registrations, the traffic accident count in Canyon for 1963 rose about 32 per cent over the 1962 total.

A total of 144 accidents involving personal injuries or property damage of \$25 or more was investigated by the Canyon Police Department in 1963, according to police records. This compares with a total of 109 in 1962.

No traffic fatalities occurred in Canyon city limits last year, and no serious injuries were reported.

The intersection of 4th Ave. (State Highway 217) and 23rd St. (U. S. 87) remains the most dangerous traffic point in town, according to Police Chief L. D. Caldwell.

In traffic control, a total of 272 tickets for illegal parking and 319 for moving traffic violations were issued.

Corporation court fines for traffic violations totaled \$4,400.

L. J. Witkowski was in Bona Vista, California recently on a short business trip.

Young Homemakers Club. She has become known to club members as an "excellent cook" through pot luck functions of the two clubs.

"I usually take a dessert," says Mrs. Bagwell.

A friend and fellow club member, Mrs. Walter Cranmer, comments that Mrs. Bagwell's desserts are always the first to disappear at club functions.

Mrs. Bagwell likes to spend her spare time reading fictional novels. She participated in the Future Homemakers of America organization and took home economics while in high school at Groom. Her recipe for Whipped Cream Pie follows:

WHIPPED CREAM PIE

For Crust mix together:

3 egg whites, beaten stiff, with a little cream of tartar
1 cup sugar
1/2 cup nuts
18 white saltine crackers, crumbled

Combine ingredients and bake in pie pan at 350 degrees until golden brown. Set aside to cool.

For pie filling combine:

3/4 cup orange marmalade
1/4 cup shredded coconut
and fold into one cup of whipped cream. Spread onto cooled baked crust and place pie in ice box. Chill well before serving. Keep refrigerated.

EDITOR'S NOTE: We appreciate your tips on homemakers and their recipes. Any reader with a family-tested recipe is invited to either write or call, OL 5-2141, CANYON NEWS to be listed for a later issue. Thank You.

HISTORICAL MARKER in honor of Gen. Horace Randall is at the roadside park south of Canyon. Mrs. T. B. McCarter, president of the Randall County Historical Survey Committee, looks over the marker which was given to the county in 1936 by the Texas Highway Department.

Historical Marker In Road Park

"But you have a historical marker."

Members of the Randall County Historical Survey Committee heard the surprising news recently from M. V. York, resident highway engineer for Canyon.

The committee was trying to locate a place to put a historical marker for Gen. Horace Randall, for whom the county is named. York was asked about a location, and he told the committee the county already has a marker.

But where? York explained

Marker Lost From Pioneer Ranch Site

Loss of an aluminum historical marker from the old T-Anchor headquarters site north of Canyon has been reported by Mrs. T. B. McCarter, chairman of the Randall County committee of the Texas State Historical Commission.

Used by the commission to mark sites of authentic historical interest, the 16-inch medallion was purchased and replaced by the Canyon Chamber of Commerce about two years ago.

Value of the marker is about \$15.

Cooley To Lecture Wednesday

Jerry Cooley will lecture on "Exchanging Real Estate" at the Real Estate Institute session on Jan. 29th.

Cooley, 1963 president of the Amarillo Board of Realtors, has been a real estate broker since 1951. He is a past president of the Amarillo Real Estate Board, director of the Texas Real Estate Association, a past president of the Texas Traders Club, and a past president of the Texas Farm Brokers.

A graduate of Kansas University, Cooley will lecture from 7 until 9:30 p.m. in the auditorium of the Administration Building at West Texas State University.

The five week institute is being sponsored by West Texas State University, the Amarillo Board of Realtors, Inc., and the Chambers of Commerce of Amarillo and Canyon. Participants in the institute will receive certificates from the University upon completion of the course that was designed for brokers, salesmen, managers, office personnel, and college students.

The final lecture, "Taxation of Real Estate," will be February 5th with Hugo H. Lowenstein, Sr. speaking. Lowenstein is presently a member of the Texas Commission on State and Local Tax Policy.

to Mrs. T. B. McCarter, president of the local group, the marker had been approximately six miles north of Canyon for many years. However, when the expressway to Amarillo was built the stone marker was moved to the roadside park south of Canyon.

And sure enough, the large plaque, furnished by the Highway Department of Texas in 1936, is in the park drawing little attention.

The marker reads in part as follows: "Randall County formed from Young and Bexar Territories. Created August 21, 1876. Organized July 27, 1889.

"Named in honor of Horace Randall, 1821-1864. A distinguished Confederate officer who fell in battle at the head of his brigade."

The Texas State Historical Survey Committee is attempting to find all markers in order to publish a guide to tourists through Texas. Locations of each marker will be told and a brief history of the area. Plans are being made by the state committee to publish a book showing the part Texas played in the Civil War.

Two Men Serve As Missionaries

The Church of Jesus Christ of Latter Day Saints has two missionaries now serving in Canyon.

The missionaries, Elder Gary L. Mortensen and Elder Steven V. Cottam, are part of the 12,000 full time missionaries who serve their church, at their own time and expense, in every nation of the world.

Elder Mortensen is from Pleasant Grove, Utah and has completed one year at Snow Junior College in Utah. Previous to his arrival in Canyon, he has had assignments in Dallas and Amarillo.

Elder Cottam, whose home is in Salt Lake City, Utah, has served in the central Texas region for the major part of the nineteen months he has spent in Texas. He attended Dixie Junior College in Utah for one and a half years before coming to Texas.

Elders Mortensen and Cottam will be conducting church field work in Canyon for a period of two to six months. They report

The W. H. Hardens have returned from a weeks trip to Lubbock and Eunice, New Mexico where they had been visiting with their daughter's family and a daughter-in-law.

While in Lubbock they were guests of Dr. and Mrs. Ishmael Hill, a daughter, for five days. The Hardens then travelled to Eunice, New Mexico for a week end visit with their daughter-in-law, Mrs. L. B. Harden.

Visiting with Mr. and Mrs. E. P. Harding recently were Mr. and Mrs. Dale Jones and son, Dan, from Morse.

Mrs. Jones is a daughter of the Hardings.

County Court Slates Jury Week Feb. 10

Docket call for the next session of Randall County Court will be at 9 a.m. Feb. 3, according to County Judge Wayland C. Angel.

Jury cases will be heard the week of Feb. 10, Judge Angel said. The docket of criminal cases so far lists three cases of driving while intoxicated, one of concealing mortgaged property, and two of concealing stolen property. Also scheduled are seven appeals from corporation court and two appeals from justice of the peace rulings.

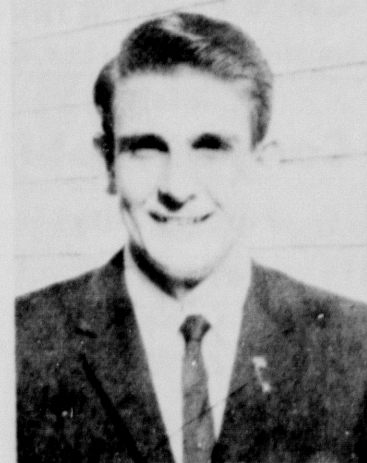

Posse Banquet Set Saturday

Sheriff's Posse members will have their annual banquet Saturday night at 7 o'clock in the Canyon High School cafeteria. Posse members and the Junior Deputies will be given awards won throughout last year.

Officers will be installed and entertainment will be provided by Ronnie Sweet and Boy Scout Troop 31.

Buddy Knox Leads Duel Life As Famed Singer

BY MARGO WILLIAMS
Buddy Knox enjoys a dual life as a public image and a quiet family man.
The famous recording artist is notorious for inciting screaming females, foot-stomping males and hand-clapping adults. Noise is a synonym to the Buddy Knox who travels around the country making nightly personal appearances.

But three to four months of each year is devoted to a quiet life in a Georgia town for the world famed singer.
Knox enjoys both types of atmosphere, the screaming teenagers and the quietness of his family. And it is easy to like both kinds if you are a recording artist depending on records sales for your livelihood.

Buddy Knox has learned how nice public attention is, especially when his salary comes as a result of this attention. And he has learned that his family (consisting of his wife, Glenda, and two young children) offers the fireside feeling of relaxation.

Young Knox is a Canyon boy made good in the big time. His beginning as a singer and guitar player reads like a fairy tale, but not all was glamorous for the local youngster fresh out of college.

Buddy recalls that his singing and playing career began as a student on the West Texas State campus.
"Several of us would sit around in the old fine arts building at night and make up songs. We would record them on a tape recorder, but we would erase them immediately.

"We certainly didn't want anyone to hear them. They were terrible, or we thought so anyway," Knox said.

To encourage school spirit three or four of the boys would serenade the girls' dormitory

the night before a big football game.

"Sounds rather corny now, but then we had a ball. And believe it or not, it did help school spirit," he pointed out.

School spirit or no, some of the dorm counselors were not as appreciative of the early morning serenaders.

Buddy recalled one dorm mother called the police while the group was playing what would later become a Golden Record hit.

"Someone suggested we make a tape and see if it would sell. Well, we toyed with the idea and finally decided it wouldn't hurt anything.

"So we saved \$60 and sent the tape to New York. In five weeks a check found its way to us...a check for \$1500," Knox recalled excitedly.

The boys, known then as the Serenaders, called New York to find out what the money meant, and within a couple of weeks they were in the big city signing a contract.

The three lads were in their early 20's and had no idea what an impact their signature on the contract would have on their lives.

Soon a hit record was booming across the nation. The hit record, "Party Doll," had been written in the old fine arts building and was the one WT coeds heard during the morning hours before a big Buff game.

It was followed by "I'm Stinkin' With You," "Think I'm Going To Kill Myself," "Hula Love," and "Lint Ting Tong."

But between the hits changes were being made. Buddy began his own band and labelled them the Rhythm Orchids. He began making more and more appearances on television and around the country. And he was soon to realize this was a full time business and his livelihood depended on how well he managed it.

He had majored in business at WT and he soon found that he had to watch every penny and dollar in order to stay ahead.

"A lawyer told us when we had been in the business just a short time if we didn't watch closely we would loose a lot of money. And he was right," Knox said.

Buddy keeps his own books, he keeps a diary of his daily activities and he has learned to watch his money.

"This is a business to me. I enjoy it very much, or I wouldn't stay with it, but it is a job. The only difference is that I go to work as everyone else is going home. And I get home just as everyone else is going to work," he continued.

What does the famed singer's wife think of his travels?
"Glenda travelled with me when we were first married

and she knows what it is like. She understands, and that helps a lot. I do try to spend at least three to four months at home each year, and the other eight months are spent on the road making nightly appearances," he pointed out.

Buddy has realized that his business is competitive and to stay in the public's eye a singer must offer what his customers want.

"Competition is tough because there are more artists these days. But the record business is better than it ever has been. Kids are buying more records," Knox said.

He continued to say that each song has to be planned.

"We have to write what's selling and it takes a lot of planning. We used to get in a room and just come up with something. It isn't done that way any more," he told a Canyon News reporter.

Buddy Knox has been in show business since 1956 and after playing every type of music for teenagers, he named blues as his favorite.

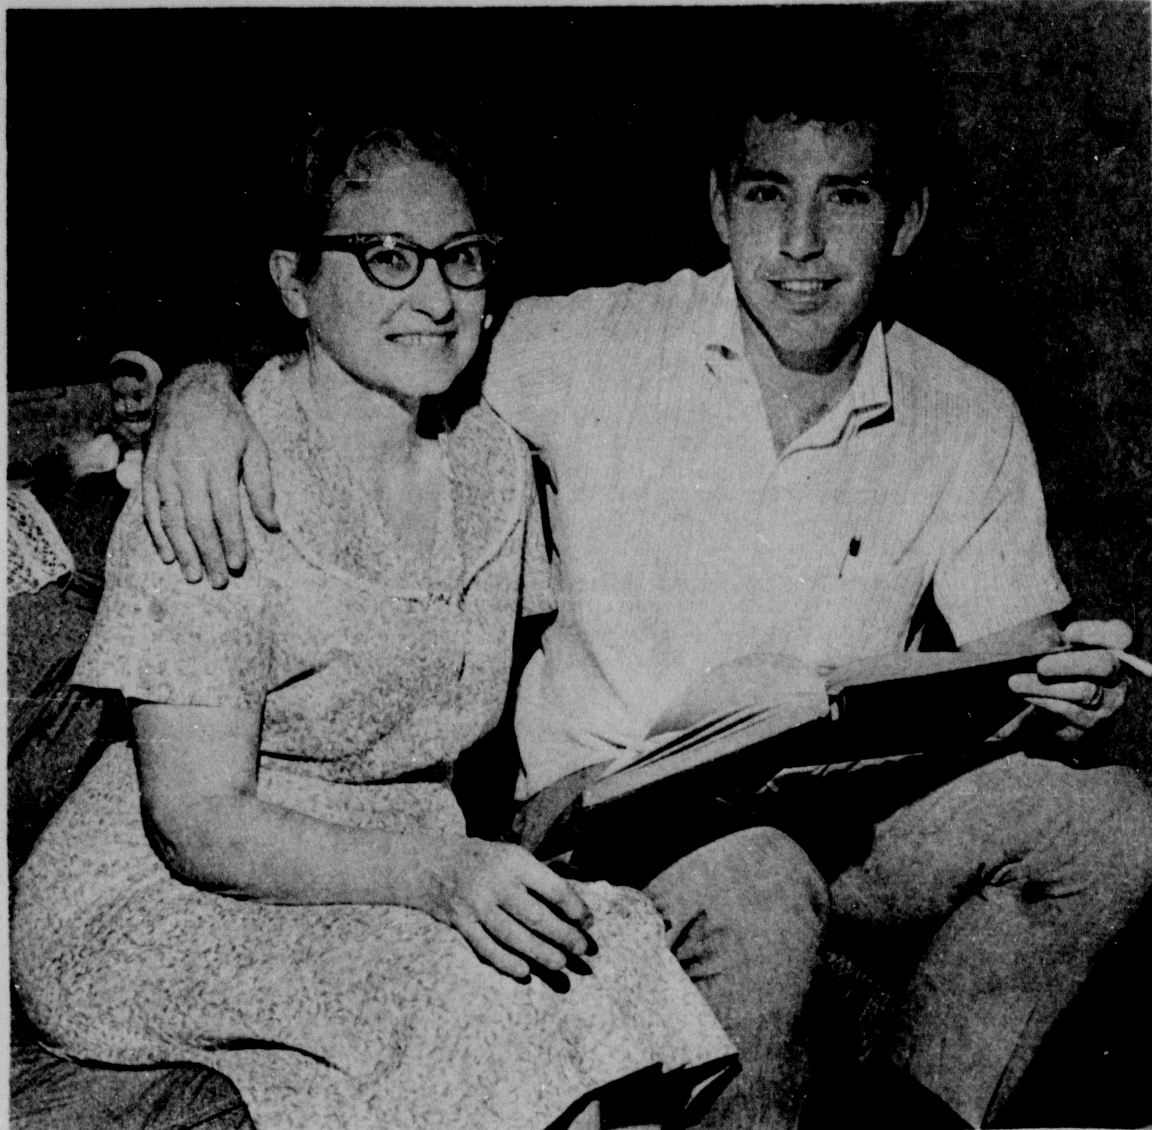

"A good blues artist can play his instrument perfectly. They know what they are doing. But most of the kids don't understand it. They like rock and roll and popular music because they understand it. That type of music is part of their era, and it is 'their' music," he explained.

But fame and spotlights have not changed the Buddy Knox who left Canyon in 1956 to see the big times.

"Everyone has to live by principal. Even if you are broke you still feel better if you don't sacrifice your principal," the hometown boy said.

And the local youngster did make good, if two publishing companies, several golden hit records and keeping a winning personality are 'making good.'

Mr. and Mrs. Norman Brantley spent last weekend in Muleshoe visiting with their parents, Mr. and Mrs. Bob Sanders and Mr. and Mrs. T. J. Brantley.

BUDDY KNOX, famed singer, returned to Canyon recently to visit his parents, Mr. and Mrs. Lester Knox. Mrs. Knox and her famous son relax in the Knox home at 1817 Second Avenue. While in the Golden Spread area

Buddy played in several towns and entertained students at West Texas State University at a dance in the student union building. He is a graduate of WT and first began singing and playing for audiences while in college.

MARILYN GILMORE of Slaton, WTSU education major who works as part-time receptionist at Panhandle-Plains Historical Museum, shows some items from a collection of ancient and contemporary Peruvian handicrafts donated by

the Amarillo firm of White & Kirk. Large water jug and glazed pottery bull are modern designs based on ancient forms. Other items date from a time before Columbus came to the New World.

Amarillo Clothing Firm Gives Artifact Collection To Museum

BY FRED TRIPP

On the Peruvian coast of South America, long Pacific rollers come in from halfway around the world, but fresh water is at a premium. The air is dry and rain is an event. The elements deal kindly with the works of man.

As a result, this narrow strip of desert between the ocean and the Andes has preserved in its dry sands the story of one of the great civilizations of the West—the Inca and pre-Inca world that flourished for nearly a thousand years before it fell to Spanish swords in 1530.

Now a part of that story has

come to the Panhandle of Texas.

Soon to be put on show at Panhandle-Plains Historical Museum is a collection of Peruvian artifacts, the gift of a pioneering retail clothing firm, White & Kirk of Amarillo.

The collection numbers about 50 items of pottery, textiles, clay figurines and models of churches, retablos and jewelry. About 80 per cent of the collection dates from pre-Columbian times and a few items may have come from the potter's hands as early as 1,500 years ago. The collection is valued at approximately \$1,400.

the collection is that part of a comprehensive exhibit of Peruvian crafts which was retained by the Amarillo store after its "Peruvian Exposition" of a year ago.

"We wanted to give this particular collection to the Panhandle-Plains Historical Museum so that the items would be available for the public to enjoy," Caufield said.

Pre-Columbian artifacts—authenticated by a New York firm which specializes in importing such items—include specimens of pottery and woven goods from the Mochica, Nazca and Chancay cultures, sonamed from present village sites which seem to have been the geographical centers of their respective styles of handicraft.

According to information supplied with the collection, Mochica artifacts date from 500 to 800 A. D., Nazca work from 400 to 1900 A. D., Chancay work from 1300 to 1438 A. D.

Each period and geographical area was characterized by a high degree of social and political development, and by distinctive art forms. The museum collection includes pottery bowls and jars in a variety of shapes, plain or decorated with geometrical patterns or remarkably expressive human and animal faces. Other pieces use expertly stylized forms of birds, fishes, and flowers, or mythological figures.

The collection also emphasizes woven goods which are described as "the best the world has ever known."

Cotton and the wool of the llama and alpaca were spun and then woven on simple looms into tapestries, blankets, and garments. The museum collection includes swatches of Peruvian work in intricate color combinations achieved by the use of only three vegetable dyes, plus the natural color of the

At the peak of its power, the Inca state embraced an area about equal to the North Atlantic states of the U. S., from Maine to South Carolina. Remains of Inca roads, bridges and fortifications still dot the heights of the Andes, and the present culture of the area still employs modified forms and patterns of a handicraft that flourished 1,000 years before Columbus discovered the New World.

Greenhoe Speaks To Club Meet

Tom W. Greenhoe, director of sports publicity at West Texas State University, was the guest speaker at a quarterly meeting of the Panhandle Pen Women Tuesday afternoon.

Greenhoe, a former free-lance and newspaper writer, also teaches a class in feature writing and assists with public relations work at the university.

A graduate of Michigan State University, Greenhoe has had ten years experience as a free-lance writer. Much of his work has been in the field of preparing dramatic scripts about past athletic events.

He worked for United Press International in Detroit and was public relations director for the Coach of the Year football clinic for four years. He was an assistant in the Michigan State sports information department before coming to WTSU.

Greenhoe's speech was presented at a noon luncheon session of the Pen Women Tuesday at the Amarillo Country Club.

"We are grateful to the management of White & Kirk for this valuable gift," said Boone McClure, curator of the museum here. "It is an archaeological treasure as well as an excellent specimen of an ancient culture that endures to the present day."

George H. Caufield, Jr., president of White & Kirk, said

Dinner guests in the I. L. Bauer home last Sunday included Junell Bauer, Mr. and Mrs. Leroy Bauer and children, Ricky, Sheryl, and Leah, all of Canyon.

Out of town guests were Mr. and Mrs. Franklin Bauer and children, Dwayne, Rhonda, Carla Beth, and Steve, of Friona; Mr. and Mrs. Ernest Rammand children, Ruth, Alta, Nancy, and Clayton, of Lariat; Mr. and Mrs. J. C. Dollard of Lubbock, a brother of Mrs. I. L. Bauer and her sisters, Mrs. Howard Zello of Borger and Mrs. Josephine Sanders and David from Perryton. Mrs. Gary Brown of Kansas City, Missouri was also present for the occasion. Mrs. Brown is a niece of the Bauers.

ITED Tests Given To CHS Juniors

Juniors at Canyon High School were taking achievement tests this week, according to Robert McDonald, school counselor.

The tests were begun Wednesday morning and will end this afternoon (Thursday).

"They are given to measure the student's progress from the first grade to his present level," McDonald pointed out.

The tests, Iowa Tests of Education Development, will score the student in math, English, science, vocabulary, social studies and sources of material.

Freshmen students in junior high school will be given the tests Monday and Tuesday of next week. In a continuing program similar tests will be given when these freshmen are juniors to see the amount of progress made in two years, McDonald explained.

Last Rites Monday For Mrs. Lange

Mrs. Joseph Lange of Happy died at an Amarillo nursing home last Saturday morning.

Mrs. Lange, 78, was born January 6, 1886, in Paisley, Indiana and was married to Joseph Lange on June 22, 1907 in Chicago Heights, Illinois. They moved to the Texas Panhandle in 1907, living first in the Nazareth area and moving to Happy in 1954.

Surviving are two sons, George of Hereford and Albert of Tulsa; six daughters, Sister Angles Imelda of San Antonio, Sister Mary Michael of Jonesboro, Arkansas, Mrs. Gertrude Irlbeck and Mrs. Delbert Wesley of Tulsa, and Mrs. James Johnson of Stonewall, Oklahoma; a sister, Mrs. Oca Wallee of Creston, Indiana and 20 grandchildren.

Funeral services were held Monday afternoon at the Holy Name Catholic Church with Rev. Welco officiating. Burial was at the Holy Name Cemetery under the direction of Wallace Funeral Home of Tulsa.

Mrs. Swatzell Breaks Ankle

A weekend skiing trip has resulted in a broken right ankle for Mrs. Jack Swatzell.

The accident occurred Sunday morning, Jan. 19th, as Mrs. Swatzell and several friends were descending the snowy slope near Sipapu, New Mexico. "I thought I was doing fine," said Mrs. Swatzell, "when all of a sudden—I was doing cartwheels down the slope."

The Swatzell family and the families of Bob Bellah, J. D. Byrd, M. L. Sherrod and Tom Lair, all of Canyon, were on the weekend trip to New Mexico.

All children of the couples were on the trip except Jack Swatzell, Jr., 15, who was at home recuperating from a broken heel bone. He had broken the heel bone of the left foot about two weeks ago while having a snowball fight with his neighborhood friends.

61 On Mexico BSU Retreat

Sixty-one West Texas State University students and supervisors left this morning (Thursday) for more than a week in Mexico.

The 54 students and seven adults are members of the Baptist Student Center on the WT campus attending a joint retreat with BSU members at the National University of Mexico in Mexico City.

Sightseeing, tours and special sessions will be held during the nine day trip with the WT students having a special meeting with Adolfo Lopez Mateos, president of Mexico.

James Dunn, student director of the Canyon church center, gave a tentative schedule for the group. The schedule included spending the night on the buses tonight (Thursday). Saturday, Jan. 25, the group will attend a bullfight in Mexico City. Sunday they will visit several Baptist Churches in the capital city and Sunday afternoon they will attend the Folklorico Ballet at the Belles Artes Theatre.

"The Folklorico Ballet has

performed on Broadway in New York and has had a command performance at the White House. They are known to be very good," Dunn explained.

The meeting with the president of Mexico is set for noon on Monday, Jan. 27. The 20-voice choir, consisting of students from WT, may have an opportunity to perform for the president.

The retreat with 50 students from the University of Mexico attending, will be held at a mountain resort south of Mexico City. Special gatherings will be planned for the mornings and evenings, leaving the afternoons for recreation.

A trio consisting of Dunn, Price Pritchard and Bub Lovell will present popular music at the retreat and the choir will perform. Both groups have learned songs in Spanish, according to Dunn.

"The purpose of the retreat is to let the two groups get the maximum amount of sharing of what Christian life means in both countries," Dunn said.

BSU TRIO, which will sing and play at the Baptist Student Union retreat in Mexico City, spent several hours last week practicing before their appearances during the 9-day trip to Mexico. Approximately 61 West Texas State University

students and adults will leave Thursday morning. Sightseeing trips are scheduled, in addition to the retreat sessions with students from the National University of Mexico.

Among the places the group will visit on the trip are the

Aztec ruins, the National Cathedral, Valles, Victoria, San Luis Potosi, Saltillo and Cuernavaca. The last night in Mexico City they will dine in the Hotel Arizpe Saenz.

While in the capital city they will stay in the Regis Hotel. Hosts for the group will be Julian Bridges and Bob Franks, directors at the BSU in Mexico City.

"Bill Moyers, personal as-

sistant to President Lyndon Johnson, and Jim Wright, congressman from Fort Worth, are the ones who arranged the interview with the president of Mexico," Dunn said.

Adults attending the retreat are Mrs. A. M. Cunningham, Mrs. Hank Warren, Mr. and Mrs. James Dunn, Dr. and Mrs. Edwin Low and Bob Byrd, program director for the student association at WT.

Fund Here For Family

A donation fund for the family of Patrolman Jerry Cawthon of Amarillo has reached a total of \$14,886 last week-end.

Patrolman Cawthon was shot while in the performance of his duties on New Year's Eve. Cawthon had been with the Amarillo Police Department, Canine Corp., for four years.

Deputy Lem Pounds of the Randall County Sheriff's Department was the first donor to the Cawthon fund.

A number of Canyon business firms, women's clubs, organizations and individuals have contributed to the fund accord-

ing to Mrs. Bill Cawthon of Canyon, a sister-in-law of Patrolman Cawthon.

The patrolman's wife, Sharon, and children, Britt, 5, Mitzi, 4, and Laura, 3, will benefit from the funds being received presently at the Amarillo Police Department. All donations should be sent to the Amarillo Police Department and designated for Patrolman Cawthon's family.

Visiting in the Bill Money home last weekend was their daughter, Mrs. Lonnie Woody and children, Tom, Billie Lou, and Gayle, from Dumas.
